

Learning Media Assessment (LMA): An Introduction

A FREE Webinar | January 27, 2021, 1-2 p.m.

As educators continue to navigate this pandemic, particularly in remote learning environments, understanding students' individualized needs is an important component of the learning process. For students who are blind or visually impaired, it is even more important to understand how they receive information for learning.

This introductory, one-hour webinar is designed to teach the basics of a learning media assessment, why it matters, the process, and resources to support teachers of students with visual impairments (TVIs), families, administrators, related service providers, and general educators.

Who Should Attend?

Educational administrators, school psychologists, families, early intervention providers, TVIs (for sharing with others), and institutions of higher education.

Registration

To register, visit <https://deafandblindoutreach.org/meetings-events>.

Questions?

Contact Christine Croyle, Ed.D. Program Director, Outreach Center for Deafness and Blindness, OCALI christine_croyle@ocali.org
