

THE OUTREACH CENTER
for Deafness and Blindness

*Building Community Capacity to
Increase Access, Communication,
and Equity for Learners Who are
Deaf, Hard of Hearing, Blind,
or Visually Impaired.*

Our mission is to increase access and equity for students, families, and communities by

- connecting resources,
- providing training for professionals, and
- fostering relationships

to equip communities to support learners and their families where they are, with what they need, when they need it to learn, grow, and live their best lives.

The Outreach Center is powered by OCALI, providing access to the vast resource network and technical expertise OCALI has established over the last 10 years.

The Outreach Center's Core Functions

PROVIDING TRAINING & SUPPORT

We provide high quality training and support to ensure educational agencies and communities are able to accurately assess what learners need to fully participate at school, at home, and in the community and that they are equipped to provide access to effective education and support as early in life as possible.

ACCESS AND COMMUNICATION

The Center works to identify and/or develop the resources to eliminate barriers, offer different perspectives, and inspire changes to help communities improve access and communication through the availability and delivery of programs, services, and training at the local and state levels.

FAMILY ENGAGEMENT

We understand the unique challenges for learners who are deaf, hard of hearing, blind, or visually impaired and know that it may be difficult for families to navigate support systems and identify and obtain tools, services, and access to qualified professionals to meet these challenges. The Center works to ensure that learners and families have the information, supports, and connections they need, with clear communication, flexible planning, collaboration, and trusted professional relationships. We work to support these efforts across the lifespan – from screening early in life through employment in adulthood.

FOSTERING RELATIONSHIPS AND CONNECTING RESOURCES

The Center works to bring together the organizations, agencies, and individuals who support learners who are deaf, hard of hearing, blind, or visually impaired and their families. We are facilitating conversations and promoting collaborations in new ways to identify, enhance, and/or develop resources. Our goal is to ensure communities build capacity to provide effective tools to support learners who are deaf, hard of hearing, blind, or visually impaired live their best lives for their whole lives.
